Mayor responded, what was his point of order? Councilman Luongo, "his point was he just received the minutes a few minutes ago that was revised, for some reason I am trying to understand, did not have a 100% verification presented to authenticate other than the attendance of David Martin and the State Budget."

Councilman Luongo, "I pointed out 10 facts that was left off the Special Call meeting of September 27th, and I just do not understand you know. How we can actually continue to do this. Why we are not recording things that need to be brought to the attention of the council. Why everything is not being recorded properly".

Mayor response, everything is on the recorder, our Clerk Treasurer does our minutes for us.

Councilman Luongo, "so it says right here on the last line in the general meeting it says the other information on the recorder is questionable and need to be heard by council and clerk treasurer. "So, do we need to rehear it."

Therefore, I said in that in itself if it's only one sided and you never heard the tape the second time. How can you authenticate that everything that you put there is 100% correct"?

Councilman Luongo, "Well I am the one that was in that meeting. I was the one that brought up those points in that meeting."

Margaret Harvey, Clerk, Treasurer "you brought those points up but those points were incorrect, all of those points were not correct."

"Councilman Luongo, Ok". "So, we actually do need to listen to these minutes to authenticate and I guess, we need to postpone these minutes until the next time we can authentic these..."

Margaret Harvey, Clerk Treasurer, "my recommendations are the minutes be listened to in Executive Session and anything that you have that you questioned me about because you are questioning any and everything that I do and say. I
