

Lexington County. They have about 17 thousand water customers. They have adopted 800 more in the last couple of months this summer, since the Town of Swansea have been going through a little bit of a transition. Jay indicated; we were closed to closing out on the Asbestos Pipe Replacement Project. Their engineering department have been over the project on behalf of the town. They have run into some unknowns in older systems smaller towns that did not have every I dotted and T crossed. They have come into some tie in's (in) areas of the town where some lines 2 or 3 should have been abandoned has caused some additional work that will begin this week. They have great coordination with the staff at Town Hall. Who have been communicating with the citizens within the town. They know when they are going to be without service. They have some good communication with the contractors.

They are also working with the school on the Project for water with the Fine Arts Construction.

RIA GRANT – His communication with RIA folks have been great. A change order to previously communicated at 46k, they were able to match 26k that they did not have to do. So that was a gift and working on those other areas we need to address to keep them to a minimum.

From an operational stand point, we have been flushing a lot of water. We sell a lot of water but we have to put a lot on the ground to keep it fresh. They want to make sure you are in compliance, and the Town of Swansea is because they are in constant contact with the regulators.

Waste Water Issues – Couple

Kevin House is great in responding to those and contractors go out as needed. Assisting of The Bull Swamp System and a friendly transition.

### **STREET MAINTENANCE**

Carlton Moore reported on his daily activities for the Town of Swansea for the month of August.

### **POLICE DEPARTMENT**
